Check out page 190 of Lance Armstrong's (2003) New Book, *Every Second Counts*. He talks about, "the tape."

"Something better than any laser, wrap, or electric massager....The Tape. it is a special hot-pink athletic tape that came from Japan and seemed to have special powers. Every morning before the stage, they would tape us all up, different parts of our bodies...George's back, Chechu's knees. Sometimes we'd be so wrapped up in hot-pink tape that we'd look like dolls, a bunch of broken dolls. But the next day the pain disappeared--it was gone."

"Every Second Counts"

Do you wonder why Kinesio Tape was worn by the Olympic athletes? Come check out what the hype is all about!
